This Amendment A responds to Examiner's Paper 2 dated May 8, 2002 and amends application Serial No. 09/429,196 (filed October 28, 1999). Please amend the application as follows.

CLEAN VERSION OF THE AMENDED CLAIMS

1 (Amended). An automated typesetting system used to produce a commercially-printed product according to a customer's corporate identity specifications, comprising:

means for creating, designing, storing, accessing, and updating an electronic graphic template of said product according to said customer's corporate identity specifications;

means for creating, designing, programming, storing, accessing, and updating an electronic database file, wherein said database file is programmed to receive and store populating data used to populate said electronic graphic template and said database file is further programmed with instructions and parameters used to format said populating data on said electronic graphic template according to said customer's corporate identity specifications;

means for inputting said populating data into said database file as database records;

means for automatically populating said populating data into said electronic graphic template; and

means for automatically formatting said populating data on said electronic graphic template according to said customer's corporate identity specifications to form a populated and formatted template.
